Subject: Resend GKMR Proposal to Address Sediment Response Related Damages
[Criteria for Response Related Damages 28Sep2015.pdf](#)
[OSR Acceptability for Bondad solid waste landfill.pdf](#)

Dana, David

Here is the Sediment proposal with the RCRA off-site rule determination attached as well. I attached the original email and the criteria to this for your ease in sending on. Only sent to you all, I don't think R9 and R6 need the RCRA item

Mike

+++++=

All:

Incident command is proposing to the R8 RICT and HQ OEM to perform some limited repair to response related damages to address sediment deposition in low flow residential areas.

Attached is a more detailed rationale and criteria when to perform this repair.

We recognize the presence setting aspects of this proposed action and that it may impact downstream areas in R6 and R9, thus will also coordinate with R6 and R9.

Thanks for your consideration,

Mike
